

treysan

treysan

SINCE 1975

Treysan Prefabrik ve Çelik Yapılar Sanayi ve Ticaret A.Ş., a company within IC Holding group of companies, was established in 1975 in Ankara. Since then, with its product range Treysan is serving many different key sectors by providing containerized and prefabricated camp solutions, permanent steel buildings, pre-engineering buildings, drilling camps and industrial solutions for Substation Containers, E-houses, Central Control Rooms. Treysan has started its operations with a participatory management approach that encourages respect to all people and awareness of social responsibility. Treysan, from the very beginning of its establishment up to the present, is continuing its to providing services to many different key industries by exporting almost 75 percent of its production to international markets with a globally established presence spanning over 5 continents having the proud of being the leading company in Turkey and one of the most distinguished companies in the world thanks to its project-based design and production processes.

Treysan, apart from the high-quality products produced in its production facilities equipped with high technology located in Ankara, also provides design, engineering solutions, assembly & installation, after sale-services, logistics, supply of furniture and equipment, fire detection and extinguishing systems, heating, cooling and ventilation systems and commissioning services. TREYSAN presents fast-track custom design wide range of products to ensure easy installation and transportation. Instead of being a temporary solution, TREYSAN products are real assets for construction companies and investors owing to long design life and multiple use adequacy in different projects in time. TREYSAN delivered exactly what it designed and promised, helping clients to for projects and freeing clients up to do best.

SECTOR LEADER

Treysan has become well organized and prepared to satisfy its customers' expectations in the best manner possible at all times and acts with the principle to fully perform and to timely and properly fulfill all of its obligations and commitments.

Treysan Prefabricated is proud to be the sector leader in Turkey, enjoying recognition among some of the most reputable global brands, and looking at a bright future with a strong reach that spans 80 countries, in 5 continents.

We offer a nationwide networks with the ability to service customers throughout the World. We maintain industry accreditation, and offer the highest performing products at international certificated manufacturing halls.

Annual Manufacturing Capacity

60+ **120+**
WHITE-COLLAR BLUE-COLLAR

Treysan manages human resources processes with monthly, yearly interviews with employees

Treysan's organization is flexible to increase the capacity to meet the production workload and installation workload to be contracted anytime, anywhere in the world

KEY SECTORS

- Oil
- Petro-Chem
- Renewable Energy & Energy Storage
- Construction and Civil
- Mine
- Military and Defence Industry
- Healthcare
- Education
- NGOs
- Humanitarian Aid and Natural Disaster
- Hospitality
- Communications and Data Storage
- Social Living Spaces and Service Buildings

OUR SERVICES

We far exceed the expectations of our clients with the services we are providing that support our products even in the most challenging circumstances.

Turn-key Solutions

OUR PRODUCTS

Customized Solutions for every Industry and Requirement

Containerized Buildings :

Treysan, offers high quality, long-lasting and functional container structures with project-based flexible design and production. It meets the building needs of different scales from single container modules to multi-storey complex building solutions.

Single & Multi- Storey Panelized System Buildings :

Treysan, high technology and quality, provide production speed, ease of transportation and assembly, as well as adapt to all kinds of climatic conditions and multi-purpose use with their project-based flexible design and portability. With the specially developed barcode tracking system, time savings and easy project tracking are provided in panel production, packaging and assembly stages. Prefabricated multi-storey panel system structures, which are produced as two, three or four floors with strong engineering solutions, fully meet customer needs with multi-purpose usage areas suitable for all climatic conditions. Space-saving very rigid structures for high-capacity needs also provide an economic advantage.

E-House, Substation and Control Buildings :

Treysan's E-House and Equipment Buildings stand out in the sector with innovative solution offers and wide service advantages at all stages from design to commissioning. Modular, flexible and always tailored to your needs, E-House structures are time-saving, cost-effective container or prefabricated solutions. E-House are modular stations that are shaped according to demands, assembled and tested beforehand. Ideal for use where workarounds are required or in hard-to-reach places. The main reason for this is that it is easy to assemble and operate.

Permanent Steel Buildings :

With its specially designed permanent steel structures, Treysan offers practical solutions that are mostly used as residential and office complexes and provide design flexibility and aesthetics, cost-effectiveness and time advantage compared to conventional structures.

Rig Camps :

Skid mounted containers also known as “mobile drilling camps” suitable for all climatic conditions at the drilling sites. They can satisfy the needs and accelerate the process of relocation with the sliding skid system it's equipped with under harshest conditions in Oil & Gas fields. Skid mounting solutions TREYSAN provides easy relocating and fast start-up.

Pre-engineered Buildings (PEBs) :

Quick and cost-saving alternatives for a wide range of sites, Treysan's pre-engineered steel buildings are ideal in terms of their flexible dimensions, speedy production and easy dismantling or relocation that is suitable for installation in any area of the world as well as use over longer periods of time.

Steel Structures and Fabrication :

Treysan offers fast and reliable solutions in permanent steel works with project-based secondary steel productions.

TRANS ANATOLIA NATURAL GAS PIPELINE (TANAP)

Sector : Oil and Gas
Year : 2017
Location : TURKEY

TURNKEY PROJECT - 3000 men capacity
 Design, Supply, Transportation and Installation of Camp Buildings
 Scope also includes supply of AC Units, Kitchen & Laundry Equipment, Furniture etc.

AKKUYU NUCLEAR POWER PLANT

Sector : Energy
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of office buildings, camp buildings and secondary steel structures, Scope also includes supply of including Fire Alarm Systems, Fire Suppression Systems, HVAC systems

3GP FUTURE GROWTH PROJECT

Sector : Oil and Gas
Year : 2019
Location : KAZAKHSTAN

Design, Supply, Transportation and Installation of office buildings, accomodation containers, equipment containers, single story panelized buildings, warehouses, Scope also includes supply of including Fire Alarm Systems, Fire Suppression Systems, HVAC systems

TUZ GOLU UNDERGROUND NATURAL GAS STORAGE PROJECT

Sector : Oil and Gas
Year : 2019
Location : TURKEY

Design, Supply, Transportation and Installation of over 100.000 m² closed area office buildings, mobilization camp facilities, pre-engineered steel structures

TCO ASSETS DEVELOPMENT PROJECT

Sector : Oil and Gas
Year : 2004
Location : KAZAKHSTAN

Design, Supply, Transportation and Installation of over 80.000 m² panelized system buildings for accomodation 8000people

KHABAT THERMAL POWER PLANT PROJECT

Sector : Energy
Year : 2014
Location : IRAQ

Design, Supply, Transportation and Installation of 14.055 m² panelized system office buildings and camp buildings.

MOSUL DAM PROJECT

Sector : Energy
Year : 2016
Location : IRAQ

Design, Supply, Transportation and Installation of multi story panelized system buildings, living containers and pre-engineered steel structures

AL MANSURIYA POWER PLANT

Sector : Energy
Year : 2012
Location : IRAQ

Design and Supply of 3500 m² fully welded camp units.

WEST QURNA PHASE 2

Sector : Oil and Gas
Year : 2013
Location : IRAQ

Design, Supply, Transportation and Installation of 2860 m² Accomodation Unit

SANKAKTEPE PANDEMIC AND EMERGENCY HOSPITAL

Sector : Healthcare Complex
Year : 2020
Location : TURKEY

Design, Supply, Transportation and Installation of high quality hospital building with more than 750 people capacity completed within less than 2 months.

Within the scope of the project, 345 people carried out the assembly operations at the same time in the field, and a total of 1558 tons of steel was shipped for the intensive care units and the core building.

INTENSE CARE UNIT (ICU)

Sector : Healthcare
Year : 2020
Location : TURKEY

Design and Supply of fully welded high-tech Medical Container with MEP and HVAC System

FULL-FLEDGED HOSPITAL COMPLEX IN POST-DISASTER AREA

Sector : Post Disaster
Year : 2023
Location : Turkey

700 tons steel fabrication and 16.950 m² closed area is provided in 2 months 175 bed capacity including intensive care unit, polyclinics, emergency patient and radiology departments with.

SOGAZ HIGH-TECH MULTIFUNCTIONAL MEDICAL COMPLEX PROJECT

Sector : Healthcare Complex
Year : 2019
Location : RUSSIA

Design, Supply, Transportation and Installation of over 9100 m² closed area multi story panelized system building and accomodation camp

2023 MARAŞ EARTHQUAKE EMERGENCY HOUSING PROJECT

Sector: Post-Disaster
Year: 2023
Location: Turkey

After massive earthquake, 2069 accommodation containers supplied in 3 months to provide relief in sheltering need in emergency cases with fully furnished as ready to use. Containerized emergency accommodation camps were established in 11 different cities simultaneously.

MODULAR BANK BRANCH OFFICES PROJECT

Sector: Post-Disaster
Year: 2023
Location: Turkey

Treysan activities to meet all the needs of the disaster area continue rapidly. We organized with our assembly teams in 13 different districts spread over different provinces of the disaster area in a very short time in order to complete the turnkey assembly of the 56 bank branches. Containerized modular bank branch offices are supplied combination of 6 modules with fully furnished as ready to use.

MEVLANA TEMPORARY HOUSING PROJECT

Sector: Post-Disaster
Year: 2011
Location: Turkey

1951 Accommodation Units, 77.500 m² containerized mobilization camp completed in 3 months after earthquake for Turkish Red Crescent

1999 ADAPAZARI EARTHQUAKE EMERGENCY HOUSING PROJECT

Sector: Post-Disaster
Year: 1999
Location: Turkey

100.500 m² Emergency Housing completed in 3 months after earthquake.

3RD BOSPHORUS BRIDGE

Sector : Civil Works
Year : 2017
Location : TURKEY

Design, Supply, Transportation and Installation of VIP
Offices and multi story camp buildings

SALALAH AIRPORT

Sector : Civil Works
Year : 2011
Location : OMAN

Design, Supply, Transportation and Installation of 3900 m²
VIP design panelized system permanent Engineers Office
Buildings

ÇANAKKALE 18 MART BRIDGE PROJECT

Sector : Civil Works
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of VIP office
buildings and mobilization camp facilities

NORTH MARMARA HIGHWAY PROJECT | Construction Camps

Sector : Civil Works
Year : 2012
Location : TURKEY

Design, Supply, Transportation and Installation temporary
and permanent VIP office building and camp complex.

NORTH MARMARA HIGHWAY PROJECT | Toll Gates

Sector : Civil Works
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of pre-
engineered steel structure Toll Gates

TURKSTREAM ONSHORE GAS RECEIVING TERMINAL SUBSTATIONS

Sector : Oil and Gas
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of fully welded fire rated Substations contain LV Switchgear Container, Battery Room, UPS Container.

Scope also includes Fire Alarm Systems, Fire Suppression Systems, HVAC systems and MEP.

TURKSTREAM ONSHORE GAS RECEIVING TERMINAL CENTRAL CONTROL ROOM

Sector : Oil and Gas
Year : 2018
Location : TURKEY

Design, Supply, Transportation and Installation of fully welded fire rated Substations contain LV Switchgear Container, Battery Room, UPS Container.

Scope also includes Fire Alarm Systems, Fire Suppression Systems, HVAC systems and MEP.

GBARAN UBIE PHASE 3A PROJECT

Sector : Oil and Gas
Year : 2019
Location : NIGERIA

Design, Supply, Transportation and Installation of E- House
 Scope also includes supply of including Electrical Systems, Mechanical Systems, HVAC systems, equipped with medium and low voltage switchgear as well as an uninterruptable power supply system.

FSRU PORT BRUNSBUTTEL LNG PROJECT

Sector: Oil and Gas
Year: 2022
Location: Germany

Design and Supply of fully welded E-House Containerized Unit with HVAC, fire suppression system, F&G Electrical system.

MDIA GAS DEVELOPMENT PROJECT

Sector : Oil and Gas
Year : 2020
Location : ROMANIA

Design and Supply of fully welded UPS Containers

TANAP SCADA TELECOMMUNICATION SYSTEM CONTAINERS

Sector : Oil and Gas
Year : 2016
Location : TURKEY

Design, Supply, Transportation and Installation of 93 modules Scada Containers Scope also includes supply of including HVAC, F&G detection, Fire Extinguishing

WEST QURNA-2 GAS TURBINE POWER PLANT EXPANSION

Sector : Oil and Gas
Year : 2022
Location : Iraq

Design and Supply of fully welded 3 different E-House Containerized Units with HVAC, fire suppression system, F&G Electrical system.

CENTRAL SOLAR INVERTER STATION

Sector : Energy
Year : 2018
Location : TURKEY

Design and Supply of 580 m² fully welded Central Solar Inverter Station Containers

LAND RIG CAMPS

Sector : Rig Camp
Year : 2012
Location : ALGERIA

Design, Supply and Transportation skid-mounted full welded blast resistant containers for land rig and military site.

CAMP SULLIVAN 3RD PHASE

Sector : Civil Works
Year : 2014
Location : AFGHANISTAN

Design, Supply, Transportation and Installation of a pre-engineered insulated tent structure including containerized storage and office buildings.

CRUDE OIL FIELD

Sector : Oil
Year : 2011
Location : IRAQ

Design and Supply of 5.700 m² containerized mobilization camp building

ACCOMMODATION CONTAINER UNIT

Sector : Civil Works
Year : 2004
Location : IRAQ

Design and Supply of more than 7000 units accommodation containers for Army camp

YLNG PLANT PROJECT CM2 PACKAGE

Sector : Energy
Year : 2008
Location : YEMEN

Design, Supply, Transportation and Installation of camp buildings over 21.800 m²

TINRHERT GAS FIELD DEVELOPMENT PROJECT

Sector : Oil and Gas
Year : 2019
Location : ALGERIA

Design and Supply of more than 3500 m² Pre-engineered Steel Structure

AIN TSILA GAS FIELD DEVELOPMENT PROJECT

Sector : Oil and Gas
Year : 2019
Location : ALGERIA

Design and Supply of more than 1600tons Pre-engineered Steel Structure

IN SALLAH / IN AMENAS GAS PROJECT

Sector : Oil and Gas
Year : 2004
Location : ALGERIA

Design, Supply, Transportation and Installation of 6400 m² pre engineered steel structures

671 MW FAST TRACK TRIPOLI WEST SIMPLE CYCLE POWER PLANT PROJECT

Sector : Energy
Year : 2021
Location : LIBYA

Design, Supply, Transportation and Installation of 10.630 m² single story and multi-story panelized building VIP design office buildings, engineer dormitory, foreman dormitory, labor dormitory, shower & wc building, kitchen & dining hall and mosque.

CAP DES BICHES COMBINED CYCLE POWER PLANT PROJECT

Sector : Energy
Year : 2020
Location : SENEGAL

Design and Supply of over 12.000 m² mobilization camp complex contains single and multi-story panelized office buildings, dormitories, recreation units, mess halls and pre-engineered steel warehouses

ROMPETROL COGEN POWER PLANT PROJECT

Sector : Energy
Year : 2020
Location : ROMANIA

Design and Supply of over 6500 m² mobilization camp complex contains single and multi-story panelized office buildings, dormitories, recreation units, mess halls and pre-engineered steel warehouses

MOGLICE DAM AND HEPP PROJECT

Sector : Energy
Year : 2015
Location : ALBANIA

Design, Supply, Transportation and Installation of 10.630 m² single story and multi-story panelized building VIP design office buildings, engineer dormitory, foreman dormitory, labor dormitory, shower & wc building, kitchen & dining hall, insulated and uninsulated storages.

HUMBOLT UNIVERCITY CONSTRUCTION PROJECT

Sector: Civil Works
Year: 2022
Location: Germany

Multi-storey containerized office buildings is supplied and installed with fully equipment

MERIAN GOLD PROJECT GOLD MINE SITE

Sector : Mining
Year : 2015
Location : SURINAME

Design, Supply, Transportation and Installation of CAMP BUILDINGS, Panelized System Buildings, Containers & Pre-engineered Steel structures

SHAHDAG SKI CENTER FACILITY

Sector : Hospitality
Year : 2010
Location : AZERBAIJAN

Design, Supply, Transportation and Installation of over 17.000 m² closed area multi story panelized system building and pre-engineered steel constructions

MINING CAMP PROJECT

Sector : Mining
Year : 2020
Location : KAZAKHSTAN

Design and Supply of over mobilization camp complex contains multi-story panelized office buildings, LABs, dormitory buildings and dining halls.

ABU DHABI BUSINESS PLAZA

Sector : Civil Works
Year : 2014
Location : KAZAKHSTAN

Design, Supply, Transportation and Installation of multi story permanent building camp and panelized system office buildings.

NASSAU CRUISE PORT

Sector: Civil
Year: 2023
Location: Bahamas

15.600 m² Bahamian Style Buildings; permanent special design new terminal, shops, restaurants, commercial areas, operating buildings, offices, shading canopies

RG RAIGORODOK GOLD MINING PROJECT

Sector: Mining
Year: 2021
Location: Kazakhstan

Single and multi- storey panelized system office buildings, dormitory buildings, social spaces, meeting rooms and multi-purpose buildings within the scope of 29.450 m² mobilization camp buildings

SPOTIFY CAMP NOU STADIUM RECONSTRUCTION PROJECT

Sector : Civil
Year : 2023
Location : Barcelona/Spain

Supply and Installation of 3.000 m² containerized office buildings for labor in construction site.
